ELECTION NOTICE, —BY THE—

Board of County Commissioners.
General Election Tuesday, November 6, 1888.

NOTICE IS HEREBY GIVEN THAT ON Tuesday, the 6th day of November, A. D. 1888, at the several election precincts in the county of Washoe, State of Nevada, hereinafter named, an election will be held for the following State, county and township officers to-wit:

One Congressman,
Three Presidential Electors,
One Judge of the Supreme Court,
Two Regents of the University, Long Term,
One Regent State University Short Term,
One State Senator,
Three Assemblymen,
One Sheriff,
One County Clerk,
One County Recorder and Auditor,
One County Treasurer,
One District Attorney and ex-Officio Superintendent of Schools,
One County Surveyor,
One Public Administrator and Coroner,
One County Commissioner for Long Term,
One County Commissioner for Short Term,
One Justice of the Peace for each Township,
One Constable for each Township.

Except where there are two or more School Districts embraced within the same election precinct, there shall be elected for each School District

One School Trustee, Long Term,
One School Trustee, Short Term,

At the same time all electors are called upon to vote for, or against, the following proposed amendments to the State Constitution, as follows:

Proposed Amendment No. 1.—Requiring the Legislature to meet biennially on the third Monday in January.

Proposed Amendment No. 2.—Defining the powers of the Legislature.

Proposed Amendment No. 3.—Prohibiting special legislation in certain cases.

Proposed Amendment No. 5.—Relative to compensation of members of the Legislature.

Proposed Amendment No. 8.—Abolishing office of Lieutenant Governor.

Proposed Amendment No. 9.—Providing for gubernatorial succession.

Proposed Amendment No. 2.—Providing for impeachment and trial of the members of the Legislature.

Proposed Amendment No. 23.—Pledging certain revenue to educational purposes.

Proposed Amendment No. 24.—Providing for special school tax.

Proposed Amendment No. 25.—Providing for the care of indigent persons.

Proposed Amendment No. 27.—Prescribing manner of amending the State Constitution.

BALLOTS.
The ballots to be used at such election shall be of good quality of white paper, 14 1/2 inch cap in form and size to be of the length of sixteen inches, and of the width of four inches, or within an eighth of an inch of such size, and if printed, black ink only shall be used, and the name of the person voted for shall be set in Brevier capitals, and the name of the office in lower case brevier type.

If the ballot be written the same shall be so written that no portion of the writing appear when the ballot is folded.

THE POLLS.
At said election the polls shall be opened not later than 8 o'clock A. M., and will continue open until 6 o'clock P. M., except one hour for recess at any time before 4 o'clock in the afternoon.

Precincts, Polling Places and Inspectors.

NATIONAL
Republican Ticket.
FOR PRESIDENT,
BENJAMIN HARRISON
OF INDIANA.
FOR VICE-PRESIDENT
LEVI P. MORTON,
OF NEW YORK
THE UNITED STATES SENATE.

The Call says the seats of twenty-six Senators, thirteen Republicans and thirteen Democrats, will be vacated at the end of the existing Congress, namely, on March 4, 1889. It has been settled by State elections which have already taken place that seven of these Senators, to wit: Morgan, of Alabama, Berry, of Arkansas, Colquitt, of Georgia, Beck, of Kentucky, Frye, of Maine, Dolph, of Oregon, and Chace, of Rhode Island, will either succeed themselves or be succeeded by gentlemen of the same political faith. The fate of the other nineteen will depend on the result of the State elections to take place on November 6th.

Assuming that no radical change has taken place in the public temper, it is probable that the Legislature to be chosen on that day will either re-elect Bowen, of Colorado, Cullom, of Illinois, Wilson, of Iowa, Plumb, of Kansas, Hoar, of Massachusetts, Sabin, of Minnesota, Manderson, of Nebraska and Chandler, of New Hampshire, Republicans or replace them by men of the same political faith, and that Saulsbury, of Delaware, Gibson, of Louisiana, Walhall, of Mississippi, Ransom, of North Carolina, Butler, of South Carolina, Coke, of Texas, and Kenna, of West Virginia, Democrats, will likewise be re-elected or be succeeded by men of their own faith.

There remain out of the twenty-six four Senators about whose succession some little uncertainty of, at least, some controversy prevails. These are: Harris of Tennessee, Riddleberger of Virginia, Palmer of Michigan, and McPherson of New Jersey. The party papers express hopes of effecting such changes in the respective Legislatures which have the naming of successors to these Senators that Harris and McPherson might be succeeded by Republicans and Palmer and Riddleberger by Democrats. It may be said, however, that the probability of the loss of a Republican Senator in Michigan is very remote.

THE FIGHT IN NEW YORK.
Why Erhardt is Confident That He Will be Elected Mayor.

NEW YORK, October 22.—Joel B. Erhardt, Republican candidate for Mayor, spent two hours at his headquarters tonight figuring on the election. These are his deductions: At the election of 1886 the vote for Mayor was as follows: Hewitt, 90,552; George, 68,110; Roosevelt, 60,435; total 219,098. The vote of Republican candidates on the State ticket, Daniels vs. Peckham for the Court of Appeals, in 1886, was 78,986, showing that 18,551 Republicans voted for Hewitt, fearing the election of George.

To show that Roosevelt would have been elected if he had received the full Republican vote, deduct from Hewitt's vote 18,551 for the Republican votes he received and add them to Roosevelt, it would have resulted as follows: United Democratic vote for Hewitt, 82,001; Labor vote for George, 68,110; Republican vote, if all had been polled for Roosevelt, 78,986; total, 219,097. The Republican plurality would have been 6,985.

Add to the vote of 1886 for additional registration this year 18 per cent, and the vote would stand as follows, dividing the increase and gains between each party proportionately: County Democrats Labor, and Tammany 165,330; Republican, 93,804; total, 259,134. Estimate the division of this vote as follows: Coogan, 30,000; Hewitt, 45 per cent of the balance, 60,898; Grant, 55 per cent of the balance, 74,432; Erhardt, 93,294; total, 258,524.

On this basis Erhardt would have a plurality of 18,773. In addition to this Mr. Erhardt thinks that more than 20,000 votes may be relied upon from independent Democrats and laborers who are opposed to the rule of Tammany Hall. Erhardt is a fighter and his candidacy for Mayor means a great aid to the national ticket. Chairman Quay thinks that Erhardt is just the man to capture many Democrats who are wavering.

A STUPENDOUS PROJECT.
The Government's Scheme to Reclaim Millions of Acres of Land.
WASHINGTON, Oct. 20.—About the busiest place in the city now is the Geological Survey. Major J. W. Powell and his staff of scientific men are engaged day and night in the solution of the problem presented by Congress in a new Act for the survey of arid lands, with a view to new irrigation. The barren lands of the great basin between the Rocky Mountains and Central Kansas comprises 1,300,000 square miles, or one third of the entire United States. A good deal of this cannot be economically irrigated for various reasons, but it has been decided by Major Powell that a quarter of, and perhaps more, can be, and that it is practically to make it so attractive to settlers that it will bear luxuriant crops and a dense population. If one-quarter were irrigated, it would make the other three-fourths valuable as auxiliary timber and pasture lands.

Regarding this vast undertaking, Major Powell said to a correspondent: "I may say that we have begun to begin. It is a stupendous project, involving a territory as large as Europe and which supports a population of 250,000,000. I see no reason why the land now infertile may not ultimately be brought sufficiently into subjection to be desirable for farm land, and enough of it rendered arable by irrigation to support as many as are likely to seek homes upon it."

"The selection of sites for reservoirs, canals, etc., rests on a complete topographical survey, which is the first factor in the problem. Nothing worth while can be done till that is at least approximately made. A large part of the arid region has thus been surveyed. We are now equipping thirteen parties for this special work in the field. "Of course, the amount of irrigable land in the West is limited by the amount of water flowing in the streams, and the next thing to be done is to find how much such streams carries. Every stream will have to be gauged. We must also ascertain how much land each stream will serve, and this will vary according to the texture of the soil, the character of irrigation, the aridity of the climate, the methods of irrigation used, and a multitude of other considerations."

DEMOCRATIC FRAUDS.
The Only Thing That Can Prevent Harrison's Election.

CHICAGO, October 22.—A special from Washington says: From New York and Indiana letters were received to-day written by men indifferently connected with the management of the Republican campaign in those States, and both announce that Harrison and Morton can be defeated only by fraud, and that every effort is being made to prevent it. Chairman Quay says that if fraud is practiced he will fill the prisons with Democrats on election day until their feet stick out of the windows. Over \$200,000 will be expended by the Republicans to prevent fraud in New York city alone. Detectives have been stationed all along the southern border of Indiana to keep out Democratic repeaters. The Democrats here concede that the Republicans will come down to New York with 70,000 plurality, but say that it will be overcome. The Republicans say it cannot be overcome except by fraud. Blaine went into the city with 62,000, and came within 1,100 of election.

Senator Quay's explanation of what the Republican National Committee has done to check fraudulent registration and voting in this city was a veritable bomb for the Democrats. A political trick equal in baseness to any that campaign managers have ever attempted has also been exposed. An attempt was being made to bring into New York a number of political "heelers," who were to register and be arrested, and at the trial have it proved that they are Republicans. This will not be attempted in all probability.

A few hundred dollars have been put into the hands of a number of Democratic "heelers," and they have been instructed to hang around hotels where politicians meet in the evening and offer to bet that Illinois, Michigan and California will go Democratic. One of the men to whom the duty was entrusted used a considerable part of the money in getting himself and a lot of other slovenly-looking fellows wildly hilarious, and they marched up and down the corridor of the Hoffman House to-night followed by a drunken and noisy crowd offering to give odds on these States in sums ranging from \$1,000 to \$12,000. This offer was not made twice before it was taken up, and the man who made it, on searching through his pockets, found that he had less than \$3 left with which to bet.

A soap mine has just been discovered near Crawfordville, Ga. Let word be sent at once to Chairman Brice, of the National Democratic Committee. He is in urgent need of soap for use in the doubtful States.

ACCLAIM TO HUMAN GRATITUDE.
Charlotte Corday, the sad-faced, tender-hearted peasant girl of Normandy made great history by one desperate act.
Sickened by the saturnalia of the French revolution, and moved to desperation as Robespierre and Marat were leading the flower of France to the guillotine, she determined that she would put an end to Marat's bloody reign.

Marat had demanded two hundred thousand victims for the guillotine! He proposed to kill off the enemies of the Revolution to make it perpetual!
Horrible thought!
No wonder it fired the blood of this patriotic peasant maid!
Gaining access to his closely guarded quarters by a subterfuge, she found him in his bath even then inexorable and giving written directions for further slaughter!

He asked her the names of the inimical deputies who had taken refuge in Caen. She told him, and he wrote them down. "That is well! Before a week is over they shall be brought to the guillotine," these words, Charlotte drew her bosom the knife, and plunged it with supernatural force up to the hilt in the heart of Marat.
"Come to me," cried Marat, and expired under the blow!

In the Corcoran gallery at Washington is a famous painting of Charlotte, represented as behind the prison bars the day before her execution.
It is a thrilling, sad picture, full of sorrow for her suffering country, and of unconquerable hate for her country's enemies.
What a lesson in this tragic story! Two hundred, nay, five hundred thousand people would Marat have sacrificed to his unholy passion of power!

Methods are quite as murderous and inexorable as men, and they number their victims by the millions. The page of history is full of murders by authority and by mistaken ideas! In the practice of medicine alone how many hundreds of millions have been allowed to die and as many more killed by unjustifiable bigotry and by bungling!
But the age is bettering. Men and methods are improving. A few years ago it was worth one's professional life to advise or permit the use of a proprietary medicine. To-day there are not two physicians in any town in this country who do not regularly prescribe some form of proprietary remedy!

H. H. Warner, famed all over the world as the discoverer of Warner's safe cure, began hunting up the old remedies of the Log Cabin days; after long and patient research he succeeded in securing some of the most valuable, among family records, and called them Warner's Log Cabin remedies—the simple preparations of roots, leaves, balsams and herbs which were the successful standbys of our grandmothers. These simple, old-fashioned sarsaparilla, hops and buchu, cough and consumption and other remedies have struck a popular chord and are in extraordinary demand all over the land. They are not the untried and imaginary remedies of some dabster chemist intent on making money, but the long-sought principles of the healing art which for generations kept our ancestors in perfect health, put forth for the good of humanity by one who is known all over the world as a philanthropist—a lover of his fellow man,—whose name is a guarantee of the highest standard of excellence.

The preparations are of decided and known influence over disease, and as in the hands of our grandmothers they raised up the sick, cured the lame, and bound up the wounds of death, so in their new form but older power as Log Cabin remedies, they are sure to prove the "healing of the nations."

Corday did the world an incalculable service in ridding France of the bigoted and murderous Marat, just as this man is doing humanity a service by re-introducing to the world the simpler and better methods of our ancestors.

ESTRAY NOTICE.
CAME TO MY PLACE ABOUT THE 12th of September, one grey saddle horse, no brands. One bay horse about 1,000 pounds, branded "AK" on left shoulder. Owner can have same by proving property and paying charges.

TOWN AND COUNTY.

BREVITIES.

The Fall weather has arrived.
Stocks were off considerably yesterday.

Go to Lange & Schmitt for window glass.

Irvin Ayres has returned to San Francisco.

Go to Lange & Schmitt for parlor stoves.

Senator Foley came up from the Bay yesterday.

Senator Stewart will speak at Washoe to-night.

Geo. W. Baker, the Eureka attorney, is in town.

Picture mouldings and curtain poles at Osburn & Shoemaker's.

Sewing machines 30 per cent. cheaper than elsewhere at Osburn & Shoemaker's.

Wall paper, from cheapest blanks to rich gold, at Osburn & Shoemaker's.

Mixed paint, the best in the world, all colors, at Osburn & Shoemaker's.

Men are constantly employed preparing the V. & T. R. R. in good order for the winter months.

Hon. Tom Reed, of Maine, the Republican leader in Congress and an eloquent advocate of protection for American industries, labor and homes, addressed the citizens of Sacramento on the issues of the day, last Wednesday, October 24th, at the Clunie Opera House.

THE "TIN SOLDIER."

To be produced at McKissick's Opera House to-night.

Of the above play to be produced here to-night the Enterprise of yesterday says:

The "Tin Soldier" Company did not disappoint the large audience that witnessed the very amusing performance. Every member of the company does something, and many of their oddities are funny enough for a whole show.

Miss Kate Davis, who took to perfection the part of the Irish domestic, exhibited her wonderful range of voice, singing, as she might have said—alto, contralto, tenor, plunger and bass. Her imitations of a cornet and bugle were so exact as to create the impression that with the assistance of a brass band she could creditably assume the character of a brass band in a Fourth of July procession.

Miss Marie Cahill is as good a kicker as Sara. She dances just as high, but her lightness and grace make her much more attractive than are the solid thumpers of the stage who are usually regarded as high-kickers.

Canby as "Rats" and Jenkins as the plunger were both good and the song "Do you think so?" in their original style took immediate hold on the affections of the gods who sit under the gallery.

A medley of comic songs and grotesque dances fills the intervals in a clatter of fun and the smooth average of merit in the performance makes the "Tin Soldier" one of the best and most satisfactory of the variety style of plays that have been put on the stage of the Opera House for a long time.

THE INDIAN SCHOOL.—The following from the Office of Indian Affairs, Department of the Interior, speaks for itself:

WASHINGTON, Oct. 13, 1888.
Hon. Wm. M. Stewart, U. S. Senator:
Sir:—Replying to your verbal inquiry of a few days since in regard to a site offered for an Indian School in Nevada, you are informed that instructions have been given a special agent to proceed to Ormsby county at an early day and examine the sites offered with reference to their adaptability for Indian School work, especially industrial training. Mr. Yennington has been so informed.

Yours Respectfully,
Geo. H. O'NEAR, Commissioner.

EUREKA REPUBLICAN TICKET.—For State Senator, John Torre; Assemblymen, A. E. Cheuey, J. P. Dunkle, Chas. E. Allen, Sheriff, L. R. Kelly; County Recorder, W. S. Beard; County Clerk, L. W. Cron; County Treasurer, W. E. Griffin; District Attorney, R. M. Beatty; County Commissioners, W. J. Smith and W. H. Stowell.

WASHOE COUNTY.

Nevada's First and Best—Statistics for 1888 From Assessor Stoddard's Report.

Annexed will be found Assessor Stoddard's annual report for 1888.

RENO, Nev., Oct. 20, 1888.

To Hon. J. E. Jones, Surveyor-General:

DEAR SIR:—I herewith transmit my statistical report for the two years ending December 31, 1888. Washoe county has prospered. Its agricultural resources have increased; more land has been brought into cultivation, and notwithstanding the last year has been exceedingly dry, the crops generally have been good. The streams have been lower than for many years, and yet the feed has been abundant, and there will be no particular suffering of stock this winter. The cattle market has depreciated considerably since last year, but at this time the prospects are much brighter. The fruit crop this year is very good generally, the apple crop is abundant; the late Spring interfered somewhat with the peaches. The small fruits were abundant. Washoe county was awarded the first premium on eight varieties of apples. Second premium for best display of apples and second premium on seventy varieties of apples and first premium on best exhibit of dried fruits at the New Orleans Exposition in 1888. Arkansas being the only State showing any better fruit than Nevada. Washoe was also awarded the first premium on wheat as the following letter will show:

NEW ORLEANS, March 20, 1888.
Hon. Wm. M. Haveror, Commissioner for Nevada:

DEAR SIR:—I desire to express to you and through you to the enterprising agriculturists of the Silver State, my appreciation of your excellent display of fruit, grains, vegetables and grasses made at our Exposition. The fruit, chiefly apples, was superior in size, beauty and flavor, being wholly free from worms or insects of any kind. The fact that it was grown wholly by irrigation gave it an added beauty in our eyes. The apples stood up well in this trying climate without help from cold storage. Some of your varieties were the finest here, in the number of varieties exhibited, your display was unsurpassed only by that from Arkansas, while in the quality it was first-class throughout as for a fruit display, it was wholly unexpected, and a surprise to us all. Your vegetables, especially the potatoes, were remarkable for their size, uniformity of shape, and compactness of texture. The flavor and general table qualities I did not test personally. I was particularly interested in your fine specimens of "snowflake," a superior variety originated by an old friend and neighbor in Vermont, and I very much regret that I did not sample their quality, as they were superior in appearance to any I ever saw among the Green Mountains—another instance of race improvement by emigration. Of your grain I was chiefly attracted by your wheat and oats; the plumpness, hardness and weight of the grain commanded immediate attention. Your wheat was especially noteworthy; the indicated yield of 60 bushels per acre and 68 pounds to the bushel was quite beyond my idea of wheat crops. The average yield in this country is about 14 bushels, and of Great Britain about 29 bushels per acre, but you exhibited wheat with a record of 60 bushels per acre. Surely your young commonwealth has something to be proud of besides her mountains and mines, and I shall watch with interest the agricultural development of your State, etc.

Lewis B. HINNARD,
Assistant Director General.

It will be seen by the foregoing that Nevada is not only a mineral and mining State, but an agricultural one, and when we have adopted a system of storage of water by artesian wells and otherwise, we will have an agricultural State in every sense of the word. Washoe county now produces on a limited scale, as good fruit, cereals and vegetables as can be produced anywhere in the world without exception. Our population is increasing and the increase consists mostly of people who are farmers and persons looking for homes. The population of Reno is increasing in proportion. Situated in the midst of an agricultural surrounding as well as mining, and on the banks of the Truckee river, the waters of which irrigate the Truckee meadows and adjacent valleys and furnish abundant water power for manufacturing purposes, is destined to become a city. On the Central Pacific Railroad and the terminus of the Virginia & Truckee and Nevada & California Railroads, it will be a commercial center; the shipping point for beef cattle and other productions of the State, as well as Southern Oregon and California east of the Sierra Nevada Mountains. It has a population of about 5,000. It has 530 residences, 35 saloons, 5 restaurants, 2 marble yards, 12 hotels, 0 dry goods stores, 4 clothing stores, 2 shoe stores, 0 lodging houses, 6 Chinese laundries, 4 millinery stores, 13 grocery stores, 4 hardware stores, 1 carriage and wagon house, 3 public schools, State University, Mt. St. Marys Academy, Episcopal School for Girls, 2 banks, 1 gas works, 1 electric light works, 5 livery stables, 4 shoe shops, 1 soap factory, 4 furniture stores, 4 stationery stores, 1 gun store, 2 newspapers (daily), 4 butcher shops, 4 drug stores, 2 merchant tailors, 7 barber shops, 2 jewelry stores, 3 cigar stores, 2 bakeries, 4 blacksmith shops, 4 halls, 2 theaters, 2 soda factories, 2 breweries, 3 harness shops, 1 beer bottling establishment, 1 photograph gallery, 1 planing mill, 2 flour mills, also a splendid quartz mill or "reduction works," and they purchased and reduced about 2,000 tons of ore during the year ending December 31, 1887.

The State Fair grounds are located about one mile northeast of the town, and the Society held its Fair there this year, and it was a grand success in every particular.

The State Insane Asylum, also situated about two miles east of the town of Reno, on the north bank of the Truckee river, with its 180 patients is being rapidly improved and thoroughly cultivated, and will, in a few years more, when its shrubbery and trees have attained growth, be a beautiful spot. The climate of this valley is unsurpassed, and is considered extraordinarily healthy. Pulmonary consumption is not indigenous, and no malarious fever is known in this county. For further information I refer you to the accompanying statistics: Statistics for the fiscal year 1888, compiled from the books of the Assessor of Washoe county, for report to the Surveyor-General:

O. M. CONN,
Registry Agent.

A Luxury and Necessity.

For rich and poor who wish to enjoy good health, and who do not wish to resort to bitter, nauseous liver medicines and cathartics, is the concentrated California liquid fruit remedy, Syrup of figs. Sold by Wm. Plummer, Reno.

An Explanation.

What is this "nervous trouble" with which so many seem now to be afflicted? If you will remember a few years ago the word malaria was comparatively unknown,—to-day it is as common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and malaria are intended to cover what our grandfathers called biliousness, and all are caused by troubles that arise from a diseased condition of the liver which, in performing its functions, finding it cannot dispose of the bile through the ordinary channel is compelled to pass it off through the system, causing nervous troubles, Malaria, Bilious Fever, etc. You who are suffering can well appreciate a cure. We recommend Green's August Flower. Its cures are marvellous.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, soothes the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 21-aw f-1v

THE ALTAN.

PARROT-TULY.—At Napa City, Cal., Oct. 24th, 1888, in the Catholic Church, by the Rev. Father Becket, Tiburcio Parrot, of St. Helena, Cal., to Miss Theresa Tully, of Carson City, Nevada. No cards.
